PROJECTS

AML Transaction Monitoring Dashboard (Excel) Excel

- Built a rule-based model to detect structuring / smurfing, mule / pass-through and dormant-account activity using SUMIFS, COUNTIFS and SUMPRODUCT (sample batch: 20 transactions, 9 customers).
- Flagged 13 of 20 transactions (₹81.5 lakh) and identified 5 of 9 customers as high risk; added KPI cards, charts and a customer review table.
- Created an auto-generated STR case dossier with a 5 Ws narrative for each flagged customer and documented all rules and assumptions.

AML Transaction Monitoring Dashboard (Power BI) Power BI, Excel

- Converted the Excel AML model into an interactive Power BI dashboard to monitor transactions and track alerts.
- Identified high-risk customers and flagged transactions at a glance, supporting faster review and reporting.

Sales Statement Dashboard Excel, Power BI

- Built an interactive Power BI dashboard on sales, revenue, profit and region-wise performance using Power Query and DAX.
- Added slicers, filters and charts (bar, pie, line, KPI cards) to support decision-making.
